

Hello stranger!

You might find that the file that you are looking for is not available. This is simply because I have taken it back.

If you got here from Walk With Us it is especially important to know this. The authors of the aforesaid site did not ask for my permission to use it. Due to such irresponsible actions, I have retracted the documents. I have witnessed them abusing/prostituting the amended statement of claims against Rocky and this is my protest against such actions.

If you got here from any site that does not attribute to the source of the statement of claims namely Politikus, please leave a comment on my blog with your legitimate email address and I shall provide you the file.

Thank you very much. ☺
